This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

Acc. no. 108

Boston, Feb. 23, 1895.

My dear Mr. Moore,

Your note of yesterday has been received. The copy of the Tentativa Lista I intended you to keep, with my compliments.

Yours sincerely

Edward Robinson

THE
WILLIAM HAYES FOGG,
ART MUSEUM OF
HARVARD UNIVERSITY.

New York (City) –

METROPOLITAN MUSEUM OF ART.

TENTATIVE LISTS OF OBJECTS DESIRABLE FOR A COLLECTION OF CASTS, SCULPTURAL AND ARCHITECTURAL, INTENDED TO ILLUSTRATE THE HISTORY OF PLASTIC ART.

FOR PRIVATE CIRCULATION AMONG THOSE WHOSE ADVICE IS SOUGHT IN THE PREPARATION OF FINAL LISTS, TO ENABLE THEM THE MORE READILY TO MAKE SUGGESTIONS TO THE SPECIAL COMMITTEE ON CASTS.

NEW YORK:
PRINTED FOR THE COMMITTEE,
JUNE, 1891.

Copyright, 1891, by the Special Committee on Casts of the Metropolitan Museum of Art.

PRINTED AT THE DE VINNE PRESS, NEW-YORK.

EXPLANATORY PREFACE

The Special Committee appointed by the Metropolitan Museum of Art to enlarge its Collection of Casts determined to prepare, as the basis of selection, a catalogue of all desirable objects without reference to present limitations of means or space, and without reference to whether these objects had or had not been already cast. Such a catalogue would furnish the ideal to which the Museum might ultimately hope to attain, and selections could be made from it as funds and space at the disposal of the Trustees might permit.

As a first step, these tentative lists are printed for private circulation among those whose advice is sought in the preparation of such a catalogue. However imperfect they may be, they will perform their function if they elicit definite suggestions as to what should be added or omitted; and the fact that they have been compiled, almost wholly, by gentlemen not even indirectly connected with the Metropolitan Museum should encourage suggestions, and certainly leaves the Committee and the Trustees free from any embarrassment in acting on them.

These lists do not include all periods and schools of art which should form part of a complete collection. They do, however, include the more important, and it was deemed preferable to gain time by printing what could be immediately prepared, rather than to delay for the sake of attaining greater perfection. The present lists can readily be supplemented by others obtained later.

The Sculptural lists are intended, from the point of view of those who have prepared them, to be representative for the epochs they cover. They include some casts already owned by the Museum.

Those for the Chaldean, Assyrian, Persian, Greek and Roman periods were made by Mr. Edward Robinson, Curator of Classical Antiquities of the Museum of Fine Arts, Boston, who recently formed the collection of the Slater Memorial Museum at Norwich. The same gentleman prepared Italian and German Renaissance lists, which have since received additions from Prof. A. L. Frothingham, Jr., of Princeton University.

Those for the early Christian and Mediæval periods and the French Renaissance were prepared entirely by Prof. Frothingham.

The Egyptian list was prepared by Prof. Allan Marquand of Princeton University.

The Committee desire to express their great obligation to these gentlemen for having placed the results of their knowledge and labor so freely and promptly at the service of the Museum.

The Architectural list now printed includes only casts already purchased for the Willard Collection of the Metropolitan Museum by the Committee of the New York Chapter of the American Institute of Architects, to whom the selection was confided under Mr. Willard's bequest. A further list is in course of preparation. The field in architecture is unlimited except by considerations of space, and suggestions for what the Museum should have in the future seemed most readily invited by simply stating what had been already acquired.

Any attempt to distinguish between works of sculpture and of architecture only demonstrates the impossibility of drawing any precise dividing line between them, particularly in mediæval times, and the lists should be read with this in mind.

The lists have been prepared in a very brief time, without all the opportunity for consideration and revision which those who have prepared them would desire, but in their present state they comprise what would probably form a more complete general collection than any yet existing in Europe.

They are printed substantially as they have been received by the Committee; and, as already stated, are intended to be tentative, not final — a step toward a complete catalogue, not the complete catalogue itself.

NEW YORK, June 27, 1891.

HENRY G. MARQUAND,
Chairman, 11 East 68th Street.

Special Committee to enlarge the Collection of Casts of the Metropolitan Museum of Art.

EXPLANATION OF MARKS, FIGURES, AND ABBREVIATIONS.

The prices, ~~except those of Athens~~, are the retail prices *without discounts*, and do not include cost of packing or shipment. ~~The Athens prices include packing and delivery at the Docks of the Piræus.~~

The number attached to the name of the museum or dealer indicates the number of the cast as given in the published sale catalogue.

X signifies that, so far as known, no mould of the object at present exists, though one could probably be made.

? indicates a doubt as to the maker of whom the cast should be ordered.

† indicates that a mould exists and a cast is probably for sale, but the name of the maker and the price were not known to the compiler of the list.

* indicates that the cast is already owned by the Metropolitan Museum of Art.

*? indicates that parts of the cast are already owned by the Metropolitan Museum of Art.

Frieze. Buy slabs which are lacking in the selection now in the Metropolitan Museum, sufficient in number to make the total length about 300 feet. This is all that is desirable for purposes of exhibition, though it might be well to have casts of all existing fragments kept somewhere for the use of those studying the subject. The Frieze is sold by Brucciani at an average of £1 per slab.

Fragment in the Vatican, . .	Rome	Berlin, 1250	Mk. 6.00
